## Itiquira

Brookfield Asset Management has signed an agreement to acquire, through its wholly owned affiliate Brookfield Power Inc., a 156 MW hydroelectric facility located in Midwest Brazil, from NRG Energy Inc.

This run-of-river hydroelectric facility, located on Itiquira River in the State of Mato Grosso, increases Brookfield's generating capacity in Brazil by more than 50% – from 295 MW to 451 MW.

With Itiquira, Brookfield's power portfolio in Brazil will include 28 generating stations. In addition, the Company has another six hydro plants under development totaling almost 150 MW and a pipeline of hydroelectric development opportunities of more than 700 MW.

## Quick Facts

Location	Itiquira, Mato Grosso, Brazil
Number of stations	2
Number of units	4
Capacity	156 MW
Annual generation	Approx. 940 GWh

## Agreement Benefits

- > Significantly increases our renewable energy footprint in Brazil.
- > Builds on our presence in Brazil's Midwest region, one of the fastest growing power markets in the country.
- > Enhances our operating platform in Mato Grosso and allows us to leverage existing infrastructure in the region.

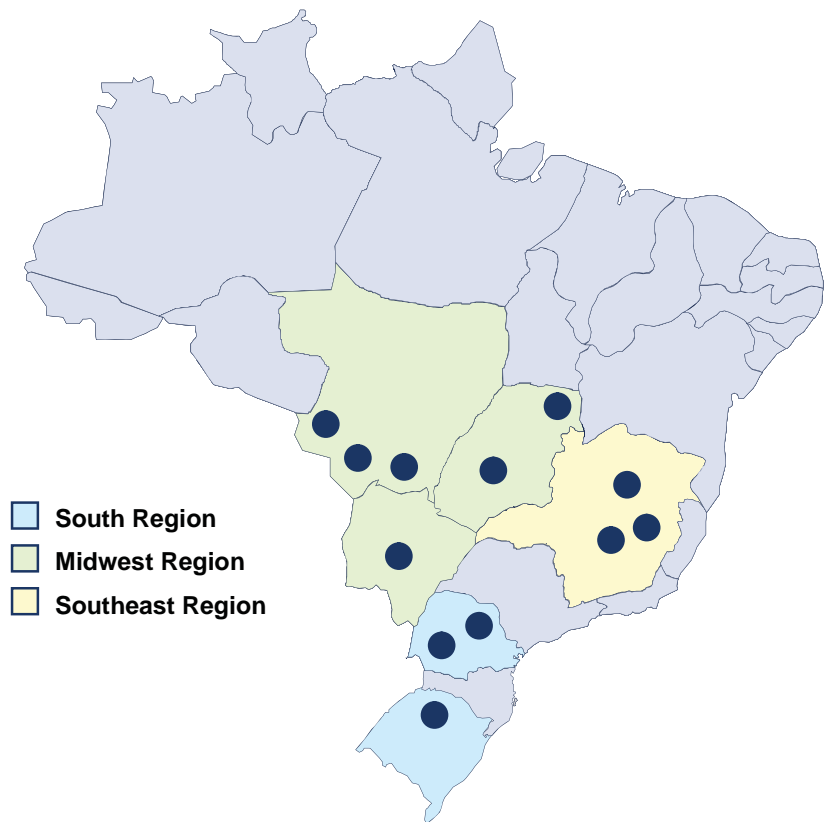

## About Brookfield

Brookfield Asset Management Inc., focused on property, power and infrastructure assets, has approximately US\$90 billion of assets under management and is co-listed on the New York and Toronto Stock Exchanges under the symbol BAM.

Brookfield Power comprises the power generating and marketing operations of Brookfield Asset Management Inc. Brookfield Power has developed and successfully operated hydroelectric power facilities for over 100 years. Its portfolio comprises over 4,000 megawatts of capacity and includes 159 hydroelectric power generating stations located on over 60 river systems, 1 wind farm and 2 thermal plants, principally in the northeastern North America and South America. (See [www.brookfieldpower.com](http://www.brookfieldpower.com) for more details).

## Brazil Operations

## Generating Asset Summary – Brazil Operations\*

Regions	Generating Stations	Number of Units	Installed Capacity (MW)	Annual Generation (GWh)
South	3	8	61.4	327
Midwest	6	12	227.0	1,394
Southeast	19	42	162.1	762
<b>Total</b>	<b>28</b>	<b>62</b>	<b>450.5</b>	<b>2,483</b>

\* Includes the Itiquira facility
